

# UNDERSTANDING THE FACTORS THAT AFFECT GLOBAL WARMING

National Council of Jewish Women  
Sacramento Section

## HOW CAN WE ADVOCATE TO ACCELERATE NATIONAL ACTION?

Many of us are alarmed by the sudden onset of dramatic climate events that scientists tell us are exacerbated by global warming. We try our best to recycle and be mindful of our water usage, but know that these individual actions won't solve the worst problem mankind has faced.

**Join NCJW Sacramento on Sunday, October 17, 2021** to learn more about the factors contributing to climate change and suggestions for actions that will effect real change.

**Kathy Dodson, a concerned citizen and retired Physical Therapist with an M.A. in Public Health,** will lead us through an interactive workshop developed by En-ROADS that will demonstrate the results of government policy decisions. She'll also share experiences advocating with Citizens' Climate Lobby - Sacramento Chapter.

We hope that you can be with us at our 3:00 p.m. - 4:15 p.m. Zoom event. Bring your questions and opinions! **RSVP today:** <https://ncjwsac.org/events/understanding-the-factors-affecting-global-warming/>

Participation in the "Understanding the Factors Affecting Global Warming" is free. A donation to NCJW Sacramento is appreciated. Your donation will help support the Section's work: <https://donorbox.org/understanding-the-factors-affecting-global-warming>
