4:00 – 5:00 PM Program 5:00 – 5:15 PM Q&A

This 1-hour reader's theater performance has been called some of the most important "edutainment" of our time.

Donna Apidone of Cap Radio pronounced, "In the first five minutes of their performance, I knew Authentic Voices had found an important niche for our country."

No lectures on racism, homophobia or ageism. This cast simply tells stories that open hearts and welcome a new viewpoint of one another, especially of one an"other." Using poignant personal stories that incorporate humor and music, Authentic Voices creates an atmosphere of oneness. Their stories enable the audience to experience what many of them experienced as People of Color, Transgender Folks, Lesbians, and European-Americans...without shame or judgment.
